

## Elevating women to empower communities.

### We believe in the power of change.

With every gift, you elevate women to empower communities through **MG A Gift That Gives**, our giving back program, where every purchase supports ethical programs and SHINE, our women's support center in San José del Cabo. We prioritize people and the planet, working sustainably to create a positive impact and build a better world.

## SHINE

A star is a luminous spheroid held together by its own gravity. We know every woman can be a Star and **SHINE**. Shine is a training and learning center that gives women the opportunity to improve their lives, by learning emotional, professional, and income-generating skills in a safe place.

We provide these tools through:

### Embroidery classes

Shine students receive embroidery classes from a fully trained teacher, learning a valuable skill that can enrich their lives while enjoying a safe environment that fosters camaraderie.

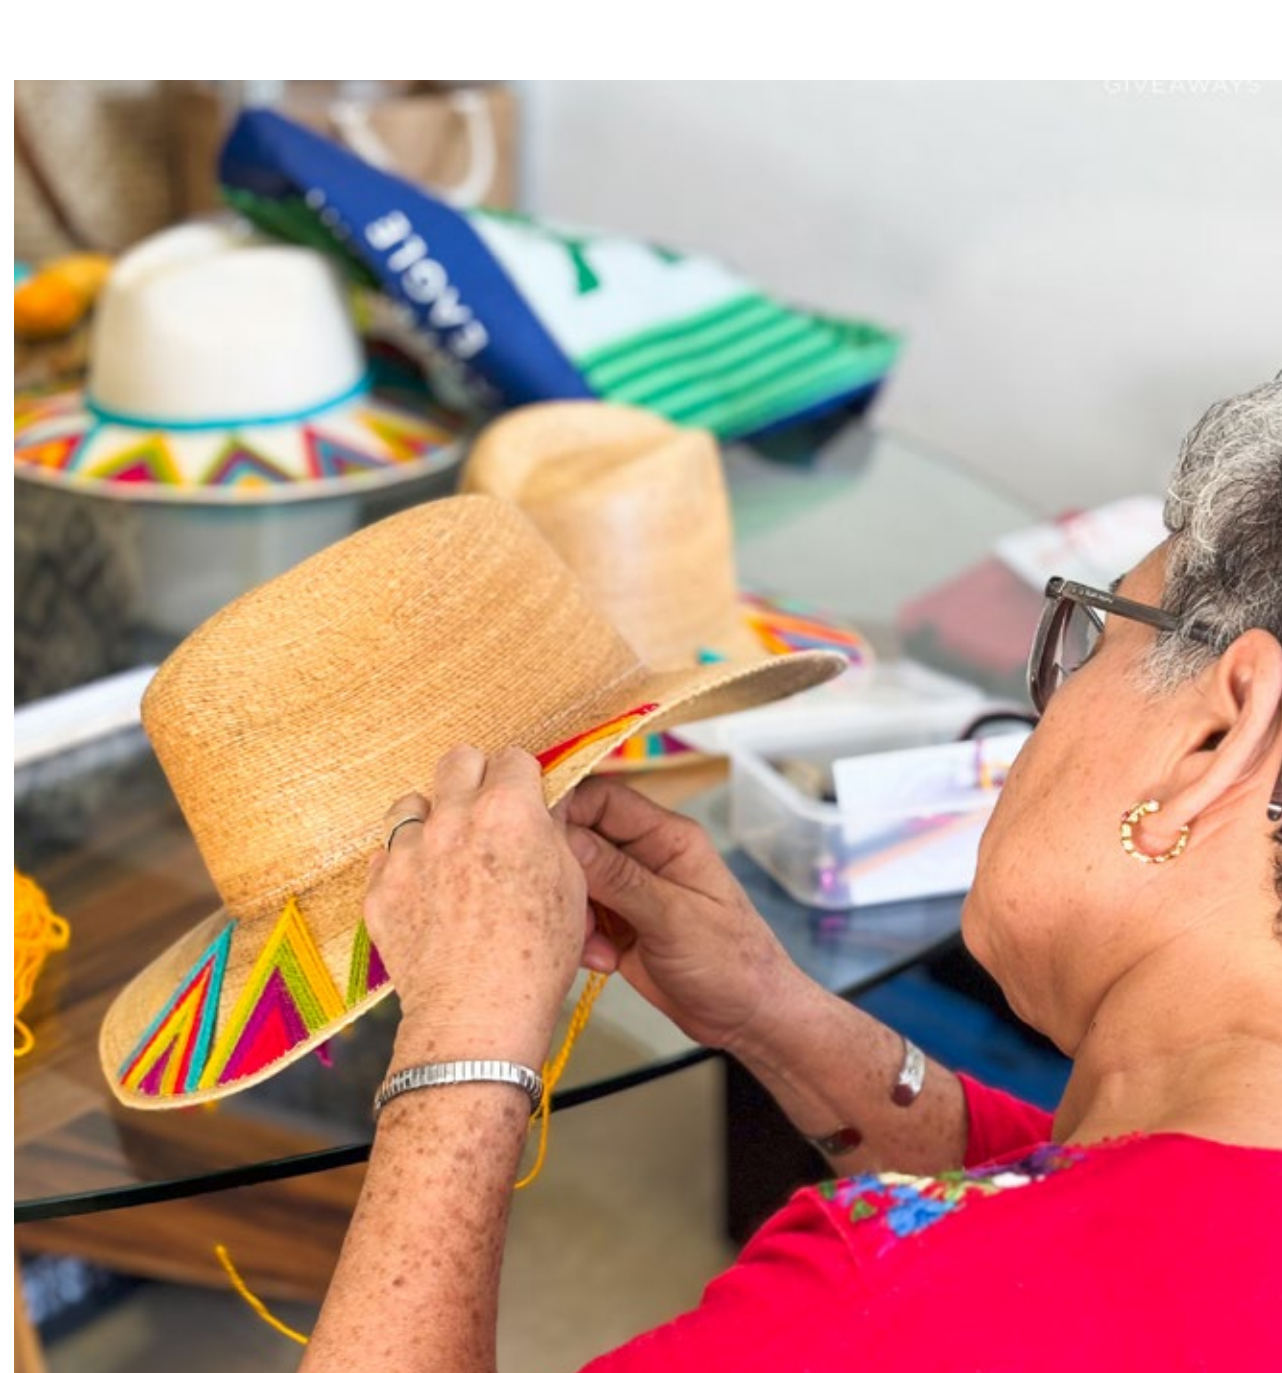

### Seminars

Professionals specialized in different areas, share their time and knowledge for Shine women and people in the community.

### Professional Growth

Providing opportunities to sell their handmade products, while also engaging them in the creation of our Vida Mia Hat Collection, equipping them with valuable skills in entrepreneurship and sales.
